

Here is a ready-to-convert PDF user manual for your influencer:

Influencer Tracker — User Manual (MVP)

1. Accessing the Dashboard

- Open the app URL in your browser (desktop or mobile):

`https://influtrack.onrender.com/dashboard`

- No installation needed — works directly in the browser.

2. Adding a Campaign

1. Fill the “**Add Campaign**” form at the top:
 2. **Campaign Name**
 3. **Brand**
 4. **Platform** (Instagram, YouTube, etc.)
 5. **Status**: Planned / Ongoing / Completed
 6. **Payment Status**: Pending / Paid
 7. **Amount** (expected revenue)
 8. **Due Date**
 9. Click **Add Campaign**
 10. The campaign will immediately appear in the table below.
-

3. Updating Campaign Status

- Each campaign row has buttons:
 - **Complete** → Marks the campaign as Completed
 - **Paid** → Marks payment as Paid
 - Click the button — changes reflect instantly.
-

4. Adding Expenses

1. In the same campaign row:
2. Enter **Expense Title** (e.g., Ads, Props)
3. Enter **Amount**
4. Click **Add Expense**
5. Expense is added immediately
6. Click **View Expenses** to see all expenses for that campaign.

5. Viewing Expenses

- Click **View Expenses** to expand/collapse the expense list for that campaign.
 - Total expenses and **Profit (Amount – Expenses)** are shown automatically.
-

6. Dashboard Overview

- **Amount** → Expected revenue
 - **Expenses** → Total expenses for campaign
 - **Profit** → Revenue minus Expenses
 - All updates are **instant** and mobile-friendly.
-

7. Mobile-Friendly

- Open the same URL on phone:
 - Forms stack vertically
 - Buttons are touch-friendly
 - Table scrolls horizontally if needed
-

8. Notes / Tips

- Always add campaigns before adding expenses.
 - Use **View Expenses** to track detailed spending.
 - Profit is auto-calculated.
 - No login needed — share the URL directly.
-
